Summary

MERN Stack Developer with hands-on experience in building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST APIs, responsive UI development, state management, and database integration. Passionate about open-source contribution, performance optimization, and developing user-friendly applications.

Education

Annai Women's College **Sep. 2024 – May 2026**
Master of Science in Computer Science *Karur, Tamil Nadu*

- **University Rank Holder** – Bharathidasan University

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Internet Technology
- Systems Programming
- Computer Architecture

Experience

Antlabs Tech **Oct 2024 – Present**
Full Stack Developer *Remote*

- Developing scalable and responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Integrated REST APIs and optimized frontend performance using Redux and Context API.
- Collaborated with UI/UX teams to develop user-friendly and pixel-perfect interfaces.
- Participated in debugging, testing, deployment, and code review processes.

Projects

Chit Fund Accounting System [Link] | *React.js, Node.js, SQLite, Express.js* **Aug 2025**

- Developed a Chit Fund Accounting System with Receipts, Payments, and Voucher management modules.
- Implemented email automation and PDF report generation for financial operations.

ALTIUSNXT Data Mapping (ADM) [Link] | *React.js, Node.js, MongoDB, Express.js, Redux, AI Integrations* **Nov 2024**

- Developed a scalable data mapping platform to streamline workflows, data classification, and schema management.
- Implemented core modules for data sourcing, product classification, and standardization with seamless API integration.
- Designed an intuitive UI with AI-powered automation features, improving efficiency and user experience.

Nizhal TNPSC - Online Learning Platform [Link] | *React.js, Node.js, MongoDB, Express.js, Redux, Razorpay* **May 2024**

- Developed a full-fledged online learning platform for TNPSC aspirants, providing video lectures, quizzes, and study materials.
- Implemented secure authentication, course progress tracking, and an integrated payment gateway for course purchases.
- Optimized the platform for high performance and scalability, enhancing user engagement.

Technical Skills

Languages: JavaScript, Python, Java, C, SQL, HTML/CSS
Frameworks/Libraries: React.js, Next.js, Node.js, Express.js, Bootstrap
Databases: MongoDB, MySQL
Developer Tools: VS Code, GitHub, Bitbucket, Figma, Android Studio
Technologies: Docker, Linux, CI/CD, REST APIs, Google Cloud Platform

Open Source Contributions

freeCodeCamp **2025 – Present**
Open Source Contributor *Remote*

- Contributed to open-source projects by fixing bugs and improving frontend components.
- Worked with GitHub pull requests, issue tracking, and collaborative development workflows.
- Completed technical workshop tasks and community contribution activities.

Leadership / Extracurricular

Prompt Engineering Competition **[Feb, 2024]**
First Prize *District Collector, Karur*

- Won first prize in a Prompt Engineering competition conducted by the Government, and received the award from the District Collector, Karur.
